## 1 Introduction

You can and should cross-reference sections and sub-sections. We use ([opendatatorotno?](#)), and ([khushaal?](#)).

The remainder of this paper is structured as follows. Section [2](#)

## 2 Data

Some of our data is of penguins (Figure [1](#)), from Horst, Hill, and Gorman (2020).

Talk more about it.

And also planes ([?@fig-planes](#)). (You can change the height and width, but don't worry about doing that until you have finished every other aspect of the paper - Quarto will try to make it look nice and the defaults usually work well once you have enough text.)

## 3 Discussion

### 3.1 First discussion point

If my paper were 10 pages, then should be at least 2.5 pages. The discussion is a chance to show off what you know and what you learnt from all this.
